Data Availability Issues DATA AVAILABILITY (5 failures)

1. Galleria_Mall

Development • 35.4s

Question: How did my plant perform yesterday?

Error reason: AI indicated failure (matched 'no data available'): Yesterday (2026-08-02), I can't assess plant performance because the dataset is empty for that date. What I could confirm: - Specific yield: no data available - Performance ratio: no data avail

2. GID

Development • 24.7s

Question: Pull up the latest cleaning log

Error reason: AI indicated failure (matched 'not found'): Here is the latest cleaning log. (Note: While the most recent cleaning logs are displayed, the latest for the current plant Mathkor_GID is not found. The logs shown below are for other sites.) Edit D

The screenshot shows a chat interface for AEPCCO. At the top, there's a navigation bar with tabs: AI Brain, Job Car..., Mainten..., Chat (selected), and Teams. A status bar at the top right shows 'TE' and a connection status. The chat area displays a user message: 'Pull up the latest cleaning log'. The AI response is: 'Here is the latest cleaning log. (Note: While the most recent cleaning logs are displayed, the latest for the current plant Mathkor_GID is not found. The logs shown below are for other sites.)'. Below the text is a table with cleaning logs.

Date	Site	Fault Cause
2026-08-01	KUPCO_HQ_Dajeej	Dust accumulatio pyranometer
2026-08-03	BF_Wheeling	Pyranometer requ for accurate meas

Below the table, the time '05:22 PM' is shown. The chat interface also includes a feedback section with the question 'Are you satisfied with the answer?' and a 'connected to Mathkor Gid' status. At the bottom, there's a prompt 'How can we help you today?' and a disclaimer: 'Mistakes in P2Chat are possible. Double-check key information.'

3. KUPCO_HQ_DAJEEJ

Development • 38.5s

Question: How did my plant perform yesterday?

Error reason: AI indicated failure (matched 'no data available'): I can't assess yesterday's performance because there is no data available for 2026-08-02. What I found: - Energy by inverter: inverter1 = NaN, inverter2 = NaN, inverter3 = NaN - Specific yield:

The screenshot shows a chat interface for AEP CO. The header includes the AEP CO logo and navigation tabs: AI Brain, Job Car..., Mainten..., Chat (selected), and Teams. The chat area displays a response to the question "How did my plant perform yesterday?". The response lists several data points that are either empty or NaN, indicating a lack of data for the specified date (2026-08-02). The response also includes a note explaining that the issue is not poor performance but missing data. The chat interface includes a timestamp of 05:44 PM, a feedback prompt "Are you satisfied with the answer?", and a status bar at the bottom showing "Time taken: 24s, token: 0 tokens" and "connected to Kupco Hq Dajeej".

AEP CO
Alternative Energy Projects Company

AI Brain Job Car... Mainten... Chat Teams

- Energy by inverter: inverter1 = NaN, inverter2 = NaN, inverter3 = NaN

- Specific yield: empty

- Performance ratio: empty

- Availability: inverter1 = NaN, inverter2 = NaN, inverter3 = NaN

- Raw power/irradiance extraction for inverter1, inverter2, inverter3, and pyranometer_1: empty

So the issue is not poor performance — it's that yesterday's data is missing or had not reached the database for that date.

05:44 PM

Are you satisfied with the answer?

4. BF_Wheeling

Development • 52.2s

Question: Please generate last months report

Error reason: AI indicated failure (matched 'error occurred'): Sorry, an error occurred while generating the report. Here are the details: 'Plant 'BF_Wheeling' was not found in external_report_sections.csv. Available plants: KHBP, SK_EX, SK_Wheeling, HPP, Noor_AI

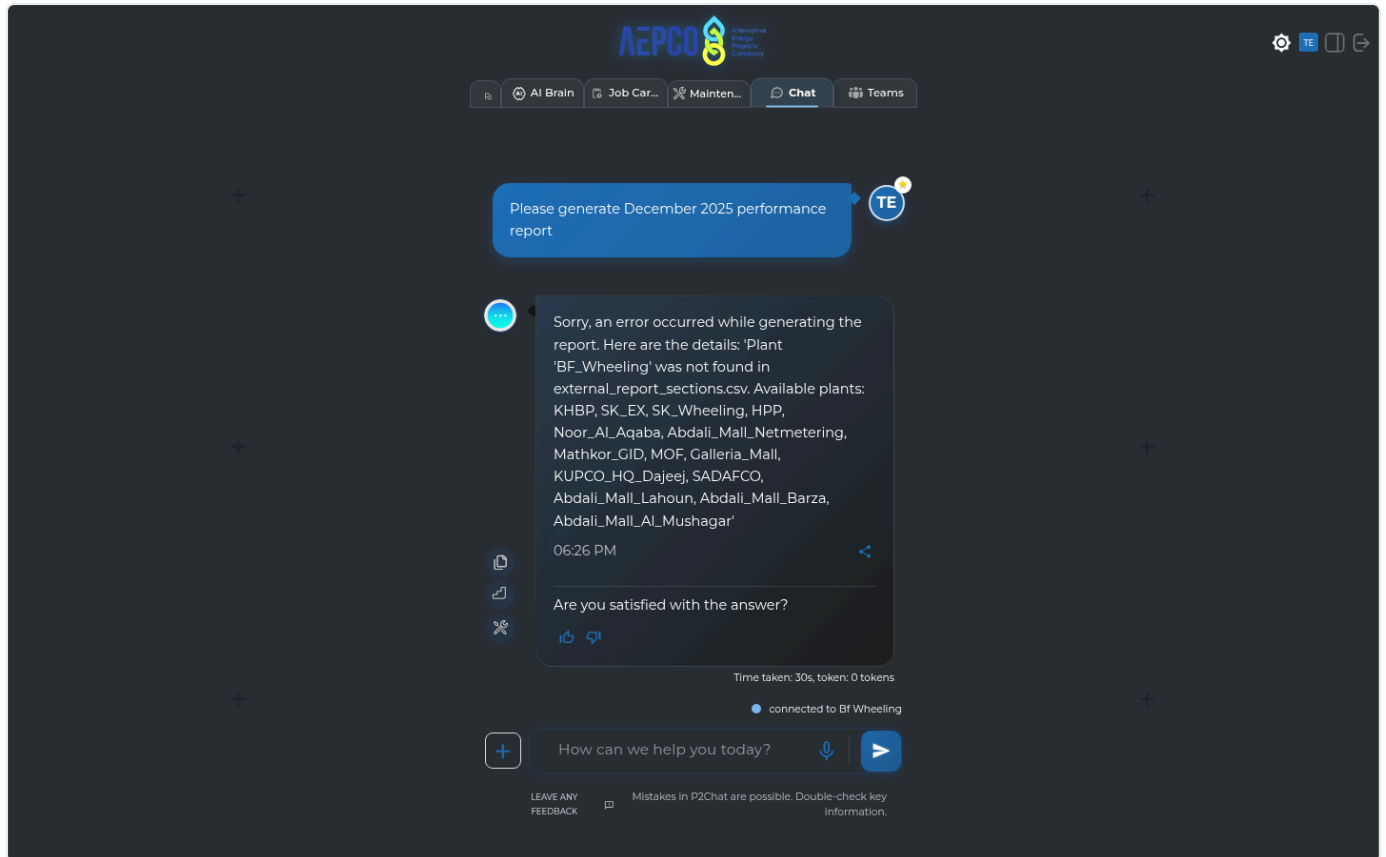

The screenshot displays the AEP CO chat interface. At the top, the AEP CO logo is visible, along with navigation tabs for 'AI Brain', 'Job Car...', 'Mainten...', 'Chat', and 'Teams'. The 'Chat' tab is currently selected. The chat window shows a message from the AI: 'Sorry, an error occurred while generating the report. Here are the details: 'Plant 'BF_Wheeling' was not found in external_report_sections.csv. Available plants: KHBP, SK_EX, SK_Wheeling, HPP, Noor_AI_Aqaba, Abdali_Mall_Netmetering, Mathkor_GID, MOF, Galleria_Mall, KUPCO_HQ_Dajeej, SADAFCO, Abdali_Mall_Lahoun, Abdali_Mall_Barza, Abdali_Mall_AI_Mushagar'. The message is timestamped '06:11 PM'. Below the message, there is a section asking 'Are you satisfied with the answer?' with icons for thumbs up and thumbs down. Further down, there are links for 'Click here for Source', 'Click here for Steps', and 'Click here for Tools'. At the bottom of the chat window, it says 'Time taken: 36s, token: 0 tokens' and 'connected to BF Wheeling'. Below the chat window, there is a text input field with the placeholder 'How can we help you today?' and a microphone icon. At the very bottom, there is a footer with the text 'LEAVE ANY FEEDBACK' and 'Mistakes in P2Chat are possible. Double-check key information.'

5. BF_Wheeling

Development • 44.5s

Question: Please generate December 2025 performance report

Error reason: AI indicated failure (matched 'error occurred'): Sorry, an error occurred while generating the report. Here are the details: 'Plant 'BF_Wheeling' was not found in external_report_sections.csv. Available plants: KHBP, SK_EX, SK_Wheeling, HPP, Noor_AI

LLM Reasoning Issues LLM REASONING (5 failures)

1. GID

Development • 33.8s

Question: When was the last time the BOM data showed up

Error reason: AI indicated failure (matched 'i'm sorry'): I'm sorry, I only handle UI interface actions such as views, settings, and guides. For questions about plant performance data or BOM data, please contact the report_agent or data support team. 05:17

The screenshot displays the AEP CO chat interface. At the top, the AEP CO logo is visible, along with navigation tabs for AI Brain, Job Car..., Mainten..., Chat, and Teams. The chat window shows a sequence of messages:

- A system message: "Are you satisfied with the answer?" with thumbs up and thumbs down icons. Below it, "Time taken: 24s, token: 0 tokens".
- A user message (blue bubble): "When was the last time the BOM data showed up" with a "TE" status icon.
- An AI response (light blue bubble): "I'm sorry, I only handle UI interface actions such as views, settings, and guides. For questions about plant performance data or BOM data, please contact the report_agent or data support team." followed by the timestamp "05:17 PM". Below the response, "Time taken: 19s, token: 0 tokens".
- A follow-up system message: "Are you satisfied with the answer?" with thumbs up and thumbs down icons. Below it, "Time taken: 19s, token: 0 tokens".

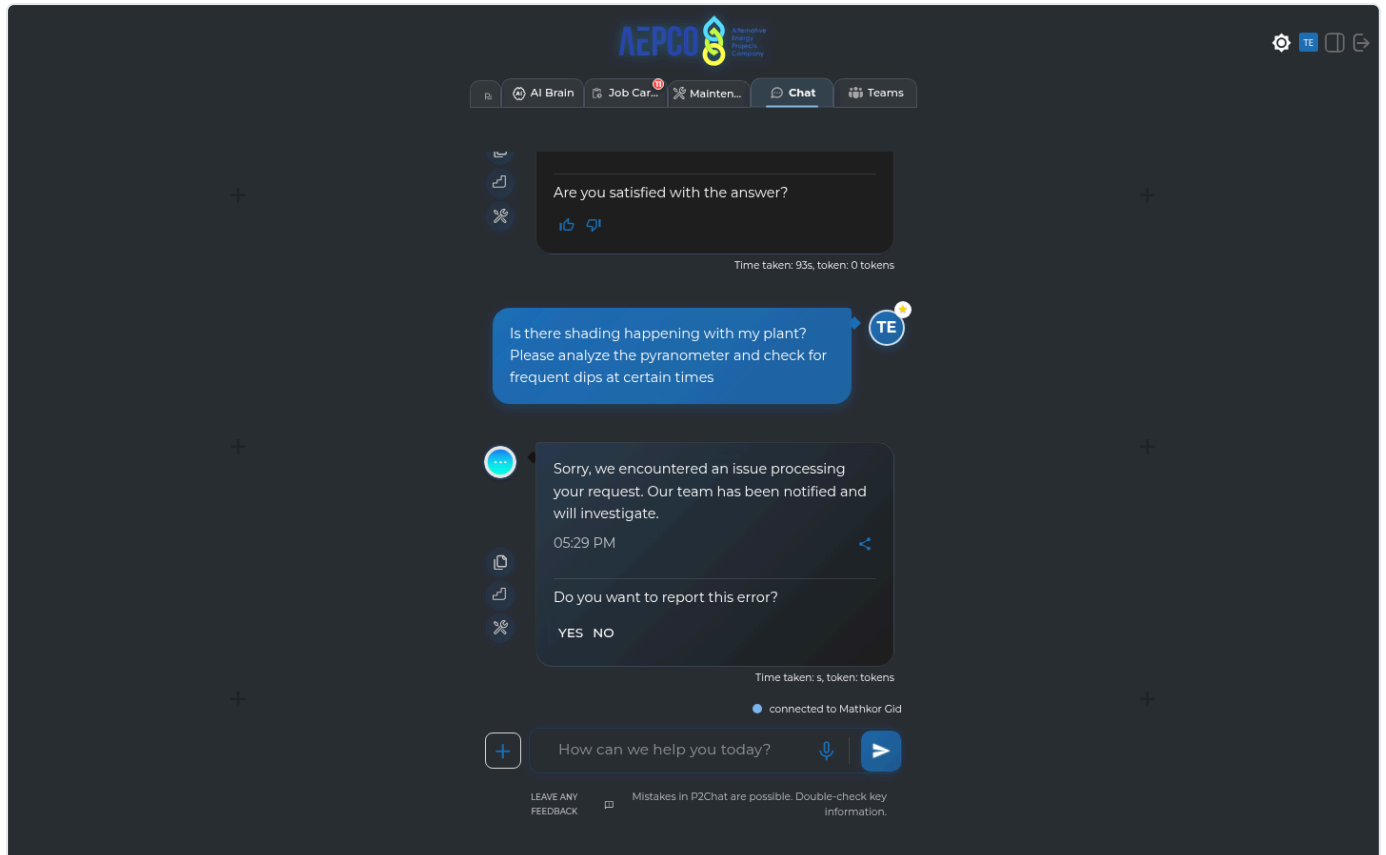

At the bottom, there is a status bar indicating "connected to Mathkor Gid" and a text input field with the placeholder "How can we help you today?". A small disclaimer at the very bottom reads: "Mistakes in P2Chat are possible. Double-check key information."

2. GID

Development • 24.7s

Question: Is there shading happening with my plant? Please analyze the pyranometer and check for frequent dips at certain times

Error reason: AI indicated failure (matched 'encountered an issue'): Sorry, we encountered an issue processing your request. Our team has been notified and will investigate. 05:29 PM Do you want to report this error? YES NO Time taken: s, token: tokens connected t

3. KUPCO_HQ_DAJEEJ

Development • 27.7s

Question: Was there any 0 production days in the last 7 days?

Error reason: AI indicated failure (matched 'i cannot'): No. In the available data from the last 7 days, there were no 0-production days. Daily inverter energy recorded: - 2026-07-27: inverter1 207.10 kWh, inverter2 737.38 kWh, inverter3 702.59 kWh -

The screenshot displays the AEPKO AI chat interface. At the top, the AEPKO logo is visible, along with navigation tabs for 'AI Brain', 'Job Car...', 'Mainten...', 'Chat', and 'Teams'. The 'Chat' tab is active. The chat window shows a message from the AI assistant providing daily inverter energy data for three inverters over three days (2026-07-27 to 2026-07-29). The data is as follows:

Date	Inverter1 (kWh)	Inverter2 (kWh)	Inverter3 (kWh)
2026-07-27	207.10	737.38	702.59
2026-07-28	220.14	791.76	751.67
2026-07-29	220.55	800.52	764.29

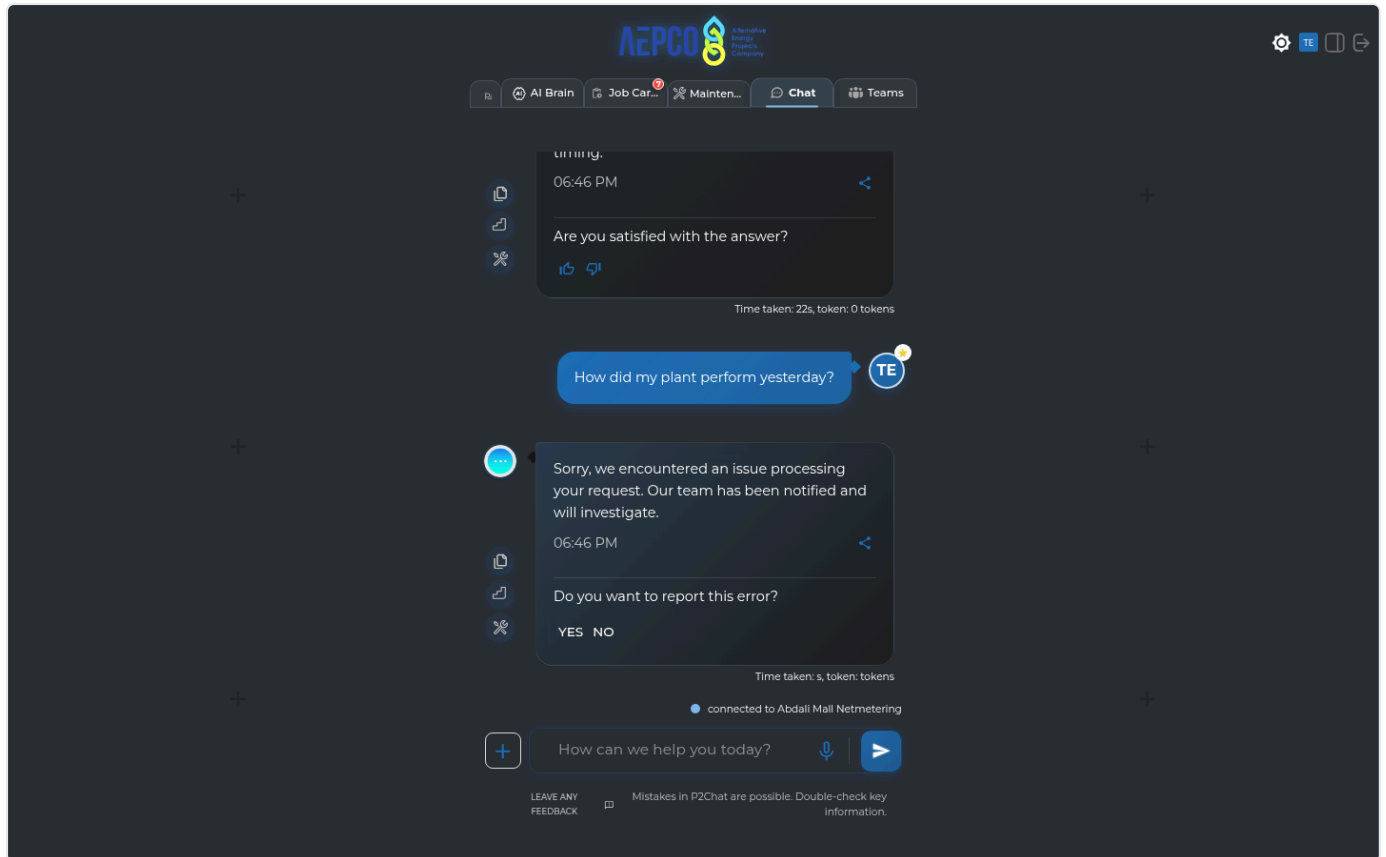

Below the data, an important note states: 'the dataset available here only reaches 2026-07-29 23:00:00, so I cannot verify 2026-07-30 to 2026-08-02.' The chat interface includes a timestamp of 05:41 PM, a feedback prompt 'Are you satisfied with the answer?', and a status bar at the bottom indicating 'Time taken: 13s, token: 0 tokens' and 'connected to Kupco Hq Dajeej'. A footer note reads: 'Mistakes in P2Chat are possible. Double-check key information.'

4. Abdali_Mall_Netmetering

Development • 21.6s

Question: How did my plant perform yesterday?

Error reason: AI indicated failure (matched 'encountered an issue'): Sorry, we encountered an issue processing your request. Our team has been notified and will investigate. 06:46 PM Do you want to report this error? YES NO Time taken: s, token: tokens connected t

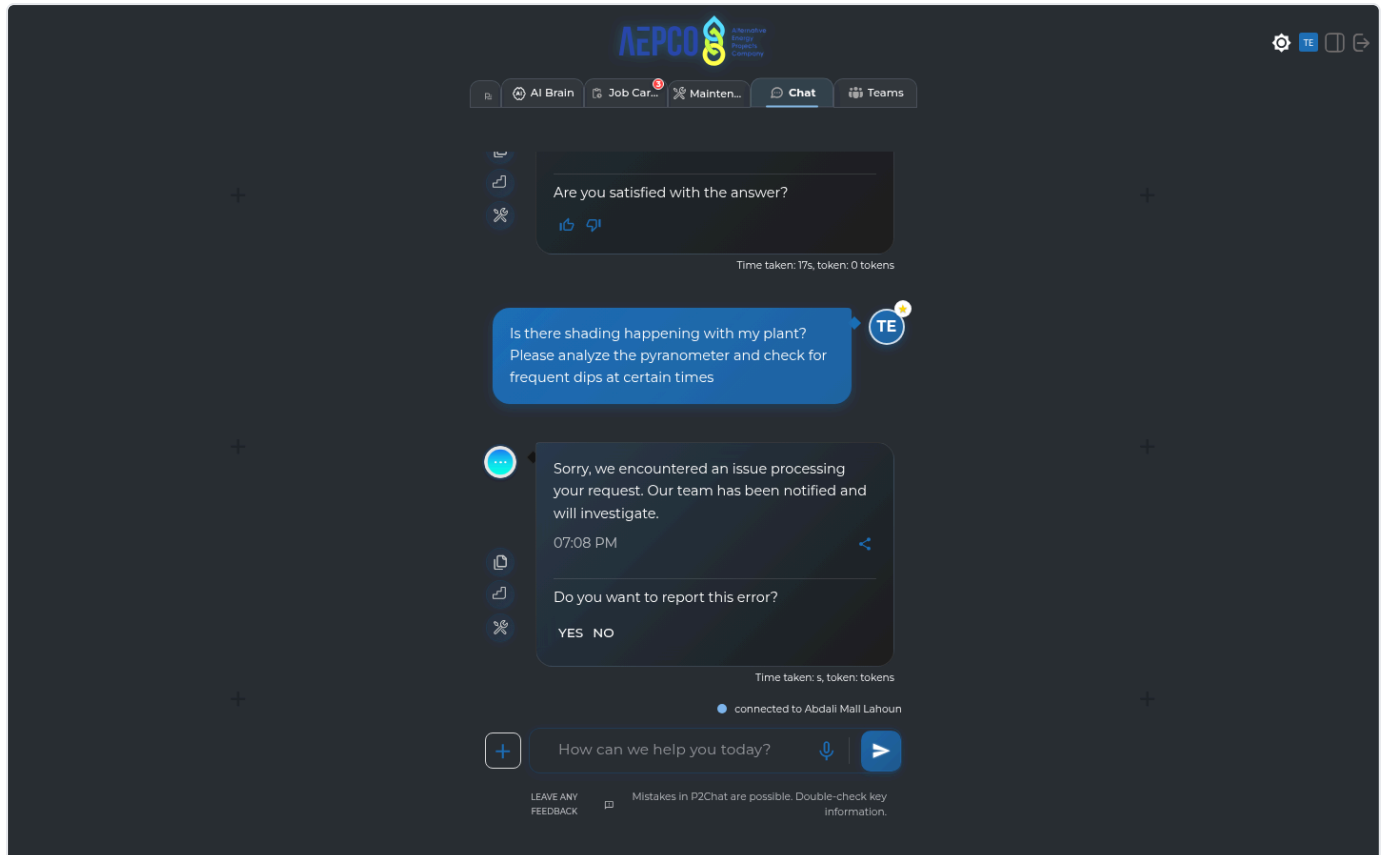

5. Abdali_Mall_Lahoun

Development • 41.7s

Question: Is there shading happening with my plant? Please analyze the pyranometer and check for frequent dips at certain times

Error reason: AI indicated failure (matched 'encountered an issue'): Sorry, we encountered an issue processing your request. Our team has been notified and will investigate. 07:08 PM Do you want to report this error? YES NO Time taken: s, token: tokens connected t

Tool Execution Failures TOOL EXECUTION (3 failures)

1. BF_Wheeling

Development • 36.9s

Question: How did my plant perform yesterday?

Error reason: AI indicated failure (matched 'internal error'): Yesterday (2026-08-02), your plant performed as follows: - Energy produced: 2,140.20 kWh - Specific yield: 5.89 kWh/kWp - Performance ratio (PR): 0.690 - PVsyst expected energy: 2,160.48 kWh

The screenshot shows a chat interface for AEP CO2. The chat window displays a performance report for a plant. The report includes the following data:

- Specific yield: 5.89 kWh/kWp
- Performance ratio (PR): 0.690
- PVsyst expected energy: 2,160.48 kWh
- Vs PVsyst expectation: -20.28 kWh (-0.94%)

Overall: the plant performed very close to the PVsyst daily expectation, with actual production about 0.9% below expected.

Note: plant availability could not be computed because the availability tool returned an internal error for this query.

06:27 PM

Are you satisfied with the answer?

Question: Please generate December 2025 performance report

Error reason: AI indicated failure (matched 'i cannot'): AI Brain Job Cards 1 Maintenance Chat Teams Good afternoon. How can I help you today? 05:33 PM TE ★ Please plot last 3 days hourly performance ratio for my MPPTs for inverter 2 I've created

The screenshot displays the AEP CO2 AI Chat interface. At the top, the AEP CO2 logo is visible, along with navigation tabs for AI Brain, Job Card, Maintenance, Chat, and Teams. The Chat tab is active. A confirmation message states: "You're about to add a cleaning activity log. Please confirm the details below." Below this, a table titled "Maintenance record created" shows the following details:

Maintenance record created	
Date	2026-08-03
Site	KUPCO_HQ_Dajeej
Fault Cause	N/A
Action Taken	Jim cleaned the pyranometer
Status	Completed

Below the table, the time "05:42 PM" is displayed. A follow-up question asks, "Are you satisfied with the answer?" with thumbs up and thumbs down icons. At the bottom, a chat input field contains the text "Please generate December 2025 performance report" and a send button. A status bar at the bottom indicates "connected to Kupco Hq Dajeej" and includes a disclaimer: "Mistakes in P2Chat are possible. Double-check key information."
